

**Question:**

The perimeter of an isosceles triangle in which each of the equal side is 59 cm and the third side is 115 cm is _____ cm.

Answer:

Given length of two equal sides is 59 cm & length of third side is 115 cm

$$\begin{aligned}\text{perimeter of isosceles triangle} &= 59 + 59 + 115 \\ &= 233 \text{ cm}\end{aligned}$$

Hence, perimeter of isosceles triangle is 233 cm.
